

October is National Domestic Violence Awareness Month

CHALK THE WALK Anytime

Write messages rooted in support and awareness on sidewalks in the community! Ask before chalking public property, and tag us in photos on social. We want to share your efforts. A great way for schools, faith groups, and small businesses to participate!

Follow the QR link or visit GreenHouse17.org for more information.

Safety and healing take root in a community that cares. Participate to show your support for survivors and identify yourself as intolerant of violence.
